

ISP 261

Fulfilling Math Requirements in Career and Technical Degrees or Certificate Programs Policy

PURPOSE

Allows students who are enrolled in Career and Technical degrees or certificate programs to fulfill the required math courses by placement at a higher level.

SUMMARY

If a student places above any of the designated math classes, the class requirement will automatically be waived.

STANDARD

1. If a course does not have a disclaimer in the Catalog, higher level placement will satisfy the requirement.
2. The student must still meet the minimum credit requirement for the program.
